

STUDENT WELLBEING

Tribes – a new way of learning and being together.

Tribes is a process that supports safe and caring environments in which kids can do well!

In the Tribes process students achieve because they:

- feel included and appreciated by peers and teachers
- are respected for their different abilities, cultures, gender, interests and dreams
- are actively involved in their own learning
- have positive expectations from others that they will succeed.

The clear purpose of the Tribes process is to assure the healthy development of every child so that each one has the knowledge, skills and resiliency to be successful in a rapidly changing world.

Recognising the need for our models of education to change and be relevant to the society our children live in the purpose of Tribes is to assure the healthy development of every child so that each has the knowledge, competency and resilience to be successful in a rapidly changing world. A Tribes school then is one where teachers, administrators, students and parents all enjoy the mutual respect and caring essential for growth and learning.

YCDI's Mission and Purpose

You Can Do It! Education's main purpose is to provide all children with the Foundations of Achievement and social/emotional well-being in school, work and the world of tomorrow.

Our core value is the development of the potential of all children (academically, intellectually, interpersonally and emotionally) through instilling Five Foundations:

- Confidence
- Persistence
- Organisation, and
- Getting Along
- Resilience that research indicates as determining the extent to which children achieve and experience social and emotional well-being.

Our children participate in a weekly YCDI lesson. There is a specific whole school focus on one of the foundations for two terms whilst embracing the principle of the other foundations. All foundations are covered in a 2 year cycle.
